

MOBILE SOLUTION

TURN YOUR CELL PHONE INTO A MOBILE PAYMENT DEVICE.

We have an easy-to-use App that allows you to accept debit and credit card payments using your cell phone or tablet. The App is free to download and fast to setup. Swipe or key enter transactions. We also provide card readers that allow your device to swipe mobile payments.

FEATURES

- Fast customer checkout
- VOIDs, refunds, sales tax and tips
- Receipts can be sent to the customers email.
- All transactions are encrypted to protect cardholder data.
- Sub users can be setup to allow more users at your business to process transactions.
